## SUMMARY.

WordPress and frontend developer with 4+ years of freelance experience delivering 20+ client projects across travel, hospitality, and business sectors. Founder of Zeebrart, specialising in converting Figma designs into high-performance WordPress sites. Currently expanding into full-stack development with React and the MERN stack. Proven ability to manage the complete project lifecycle — from branding and UI design through to deployment and ongoing maintenance.

## PROFESSIONAL EXPERIENCE.

**Freelance Web Developer (WordPress & Frontend)** Jan 2022 – Present  
Founder – Zeebrart | Remote

- **Custom Web Development:** Delivered 20+ client projects, specializing in converting Figma designs into high-performance WordPress sites using **Divi, Elementor, and custom CSS**.
- **Dynamic Solutions:** Developed complex data structures using **CPT (Custom Post Types) and ACF (Advanced Custom Fields)** to automate content for travel and business sites.
- **Key Projects:**
  - Mango Vacations ([mango-vacations.com](https://mango-vacations.com)): Developed custom frontend using Divi, CPT, and ACF for dynamic holiday listings.
  - King Coconut Holidays ([kingcoconutholidays.zeebrart.com](https://kingcoconutholidays.zeebrart.com)): Building responsive travel architecture focusing on user conversion.
- **Client Management:** Managed the full project life cycle, from initial branding and UI design in Figma to final deployment and maintenance.

**Web Designer & Digital Marketing Assistant** Nov 2019 – Aug 2021  
Solution Master (Pvt) Ltd Sri Lanka

- Designed and maintained company website.
- Managed social media content and Facebook ad campaigns.
- Created promotional graphics and branding materials.
- Assisted in improving online visibility and engagement.

## EDUCATION.

Dear Hiring Manager,

I am writing to express my interest in opportunities within web development, frontend development, or related junior-level roles. With a background in WordPress development, UI/UX design, and freelance client projects, I am eager to contribute my skills while continuing to grow in modern web technologies.

Over the years, I have gained practical experience in designing and developing websites, managing client requirements, and delivering user-focused digital solutions. My experience includes working extensively with WordPress, Elementor, and Advanced Custom Fields (ACF), as well as creating responsive layouts and improving user experience through thoughtful design.

At present, I am actively expanding my technical expertise in JavaScript, React, and MERN stack development through self-study and hands-on projects. My goal is to transition into a role where I can apply both my creative and technical strengths while learning from experienced professionals in a collaborative environment.

What sets me apart is my ability to combine design thinking with development skills. I enjoy building websites that are not only functional but also intuitive and visually engaging. I am highly motivated, adaptable, and committed to continuous learning, which allows me to quickly grow in new technologies and development practices.

I am excited about the opportunity to contribute to your team and bring value through my dedication, creativity, and strong work ethic. I would welcome the chance to further discuss how my skills and enthusiasm align with your organization's goals.

Thank you for your time and consideration.

Sincerely,

K.D. Nadeeshika Gimhani
